Introduction and Vision

The DBE's vision for education is 'Transforming the lives of Children and Young people'. The only way we can do this is by effectively supporting and equipping the staff within schools who have direct contact with the approximately 24,000 children and young people across Leicester Diocese.

Our programme of events is designed to support schools in living out their theologically rooted Christian vision and to be communities of transformation. It enables schools to be:

Effective - As a result of visionary leadership and inspirational teaching, children and young people in the Diocese of Leicester achieve excellence. They are well-rounded and confident with a strong sense of self-worth. As learners transformed, they in turn transform their communities.

Distinctive - Unequivocally Christ-like, our schools offer children and young people the opportunity to hear the Christian response to life's big questions. Christian Worship is invitational, offering the whole school community an opportunity for renewal and to encounter the person of Jesus Christ. Religious Education is exemplary, enabling a genuine understanding of the role of faith and belief in modern society.

Rooted - Our schools are rooted in prayer, partnership with parish and wider community and the teachings of Jesus Christ. Children and young people receive excellent Religious Education equipping them with a firm knowledge of the Christian faith and other key faiths.

Inclusive - Like Jesus himself, our schools are 'scandalously inclusive'. Children and families from all faiths and none are welcomed, respected, and cherished. Serving the community in which they are placed, our schools exemplify, 'love your neighbour'.

We have aimed to structure our support in the following ways:

- Vision and Values
- Leadership
- Spirituality
- Collective Worship
- Wellbeing
- Justice and responsibility
- Religious Education
- Governors and clergy
- SIAMS

We would like to note that any member of staff is welcome on any of the above training if the schools deem it appropriate for their context. It might be appropriate in smaller schools for headteachers and governors to access most of the training, whereas in a larger school it may be other senior leaders or key members of staff in a Church School such as the RE and CW lead. If you are unsure about who should be accessing the training, do feel free to email tracey.manns@leicesterdbbe.org. Alternatively, it might be that the training is accessed for a MAT rather than individual schools. This is spoken about in more depth on the next page.

Training overview

Most of the training in this document is prerecorded and can be accessed at a time to suit each person who is accessing the training. This has been done in response to the needs expressed by school staff and governors. We hope that this CPD offer allows you to gain the training you need but in a way that is more accessible for you. The face-to-face training you will find in this document has been strategically planned to allow for networking and building of relationships between the Church School family at key points in the year. We hope this offers the balance of accessibility but also creates opportunities to build meaningful relationships, which will help make an impact in your individual school context by sharing best practice and resources. The CPD document should be read in conjunction with the DBE partnership agreement as this outlines how you can gain access to most of this training at no extra cost.

Community Schools

Most of the training within this document can be accessed by Community schools as well as Church schools. The only exception to this is the SIAMS training section and specific training on what a Church school is. For example, community schools still need to provide Religious Education and can also utilise some of the Collective Worship resources but may just adapt them to make them more suitable for your context. The spirituality training will help community schools to develop their SMSC provision within schools and the training around justice and responsibility will help community schools to create positive working cultures where all people within the school community are seen, heard and valued. Community schools are welcome to email us at Officedbe@leicesterdbbe.org or tracey.manns@leicesterdbbe.org if there is something bespoke you would like us to lead for you within your individual school context. Community schools are also welcome to access our partnership agreement as it will give you access to most of the training in this document at no extra cost and will also give you access to 3 free admission appeals for each school that signs up.

MAT CPD

Most of the training in this CPD document can be offered at MAT level as well as individual school level. MATs are welcome to email tracey.manns@leicesterdbbe.org to arrange the training for MATs or make suggestions of what they need. This CPD programme should be read in conjunction with the partnership agreement which offers 3 x MAT training per year for any MAT with ***all*** schools signed up to the partnership agreement. This is on top of the support offered to each school that has signed up to the partnership agreement. MAT support could be in anything from the list below, but it is not exhaustive:

- Support with developing Christian distinctiveness at trust level
- Supporting trust RE leads
- Supporting trust CW leads
- Supporting the Christian distinctiveness/ethos lead in school visits and reviews
- Providing SIAMS reviews to the trust
- Providing regular SIAMS and diocesan updates to the trust
- Trust pupil (RE/CW/spirituality) days

Fees

The majority of the training in this document can be accessed as part of the Leicester DBE's partnership agreement and so please read that document in conjunction with this one. For any schools not signed up to the partnership agreement, stand alone bundle costs have been stated at the end of each section of this document. The only exception to this is the majority of the leadership training which can be accessed for free for all schools. For training where there is a cost, fees are per participant unless stated otherwise. The lower price listed is for schools who sign up to the DBE Partnership Agreement. Where one fee is quoted it is fixed for any school.

Venues

Unless otherwise stated events will be pre-recorded or online if it is a live training. Where events are in person, they will usually be at the DBE Office at St Martin's House, Leicester or at Launde Abbey. Sometimes we ask schools to host networking meeting – this would be arranged directly with any networking group it affects.

Terms and Conditions

The DBE require 10 working days' notice of a cancellation. Refunds may only be possible in exceptional circumstances and with at least 10 days' notice. Before cancelling, always consider whether another person could benefit from attending the event.

For larger, in person events, the cancellation periods will be different to above and in line with the cancellation notice required of any venue being hired for the event. This cancellation period will be made clear on the booking form.

Where the course is in several parts the price is for all sessions and unless indicated otherwise the same participant is expected to attend all of the sessions and the school will therefore be invoiced for ALL parts of the course.

Invoices are usually issued 1 week before the event is scheduled to take place and we request that this is paid within 30 days of the date of the invoice.

The DBE reserves the right to cancel any event should there be insufficient bookings to make the event viable. Where this is the case applicants will be notified and refunded any fees paid.

For events that are included within the partnership agreement such as the Launde retreat days, please ensure that you do adhere to the cancellation period above in the event of not being able to attend. These days do have a significant cost to the DBE and so we do need to be able to offer your place to someone else or have sufficient time to cancel your place with the venue. If we have non-attendees without notice, this will impact what we can offer in future CPD programmes.

Bookings

This programme of support is for information only and will be placed on our website for reference throughout the academic year. <https://www.leicesterdbe.org/training-and-events-2/>

Leadership

*The annual SIAMS report 2024-2025 shows that inspection evidence supports the notion that strong, knowledgeable, and supported leadership is the single most effective element in a successful Church school. Therefore, it is important to us at the DBE that we are providing this leadership support, **and that most of this support is available to all schools for free unless stated otherwise**. Please do diarise and make a commitment to accessing the above support, as you do need the time to stop and think to be the most effective leader you can be.*

Leadership focused reflections

These are recorded sessions for any senior leaders within school to help them carve out intentional thinking time to help drive their school forward. These sessions will help you think about where your efforts and actions have been in school recently and whether that is in line with where you would like your school to go. The session encourages you to see and celebrate the things in school that are working well as well as identify next steps. These sessions could be played at various times by the same person throughout the academic year, as responses to the same questions will vary depending on the time of year that you listen to it. These sessions can therefore be used as a tool at strategic points in the year to help you summarise where you are at and how you would like to move forward.

Subject knowledge – Understanding Christianity

This suite of online recorded sessions is useful for teachers, subject leads, support staff and any member of staff who will be teaching or helping to deliver RE. Lat Blaylock will contribute 4 short videos (under 15 minutes each) for teachers' own professional learning. The purpose of these is to enable users of Understanding Christianity to think further about some of the aspects of the resource that matter most. They will cover:

1. How do we teach the 'Big Story' of the Bible most effectively? Looking at the sweep of the biblical narrative through the key concepts of UC, 5-14.
2. How can we enable pupils to become good interpreters of Bible texts? The example of Genesis 1-3. Looking at the two creation narratives of Jewish and Christian scripture in ways that help 7-14s to think for themselves about the Bible stories.
3. What helps pupils to interpret the teachings of Jesus? Using examples of parable, miracle and controversy stories from the gospel, this episode looks at learning activities that progress understanding and develop interpretive skills.
4. Balancing the local and the global: looking at some local examples of Christianity in our diocese and some 'matching' examples from around the world, this episode encourages learners 5-14 to develop broad minds and open hearts from Christian content.

Fee: All the above training is free (unless otherwise stated) if your school has signed up to the DBE partnership agreement.
